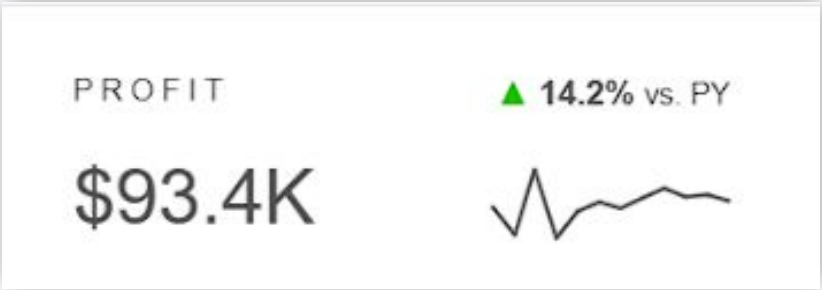
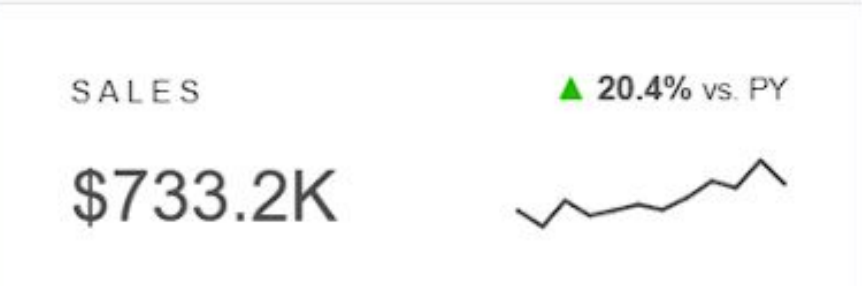
Lagging Indicator : Profit Overview

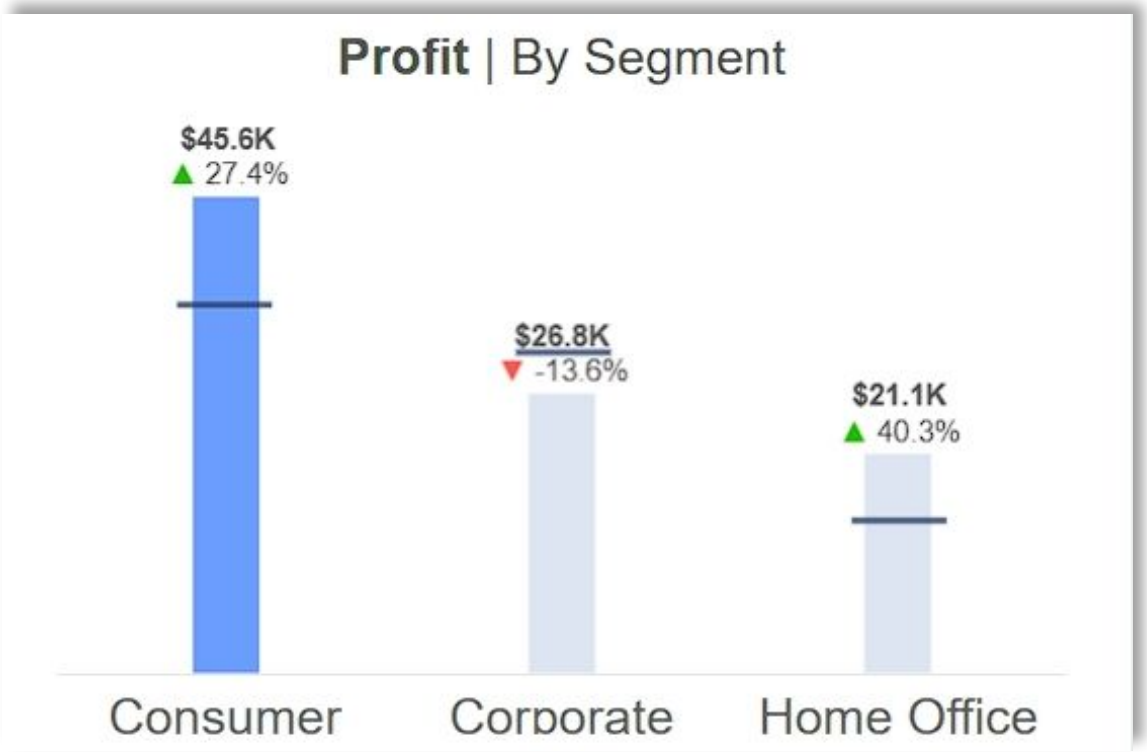


- Lagging indicators— overall Profit — increased slightly compared to the previous year even though sales and the number of orders increased significantly.
- Uneven profits across segments indicate deeper problems

Leading Indicator : Sales & Order Overview

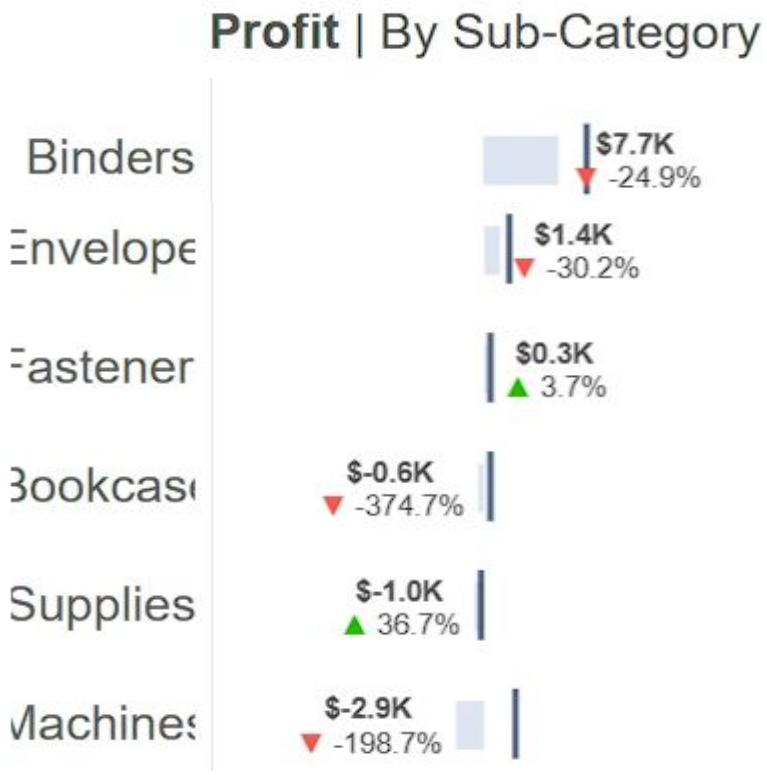


Overall company sales & orders increase significantly yet profit only grew slightly.

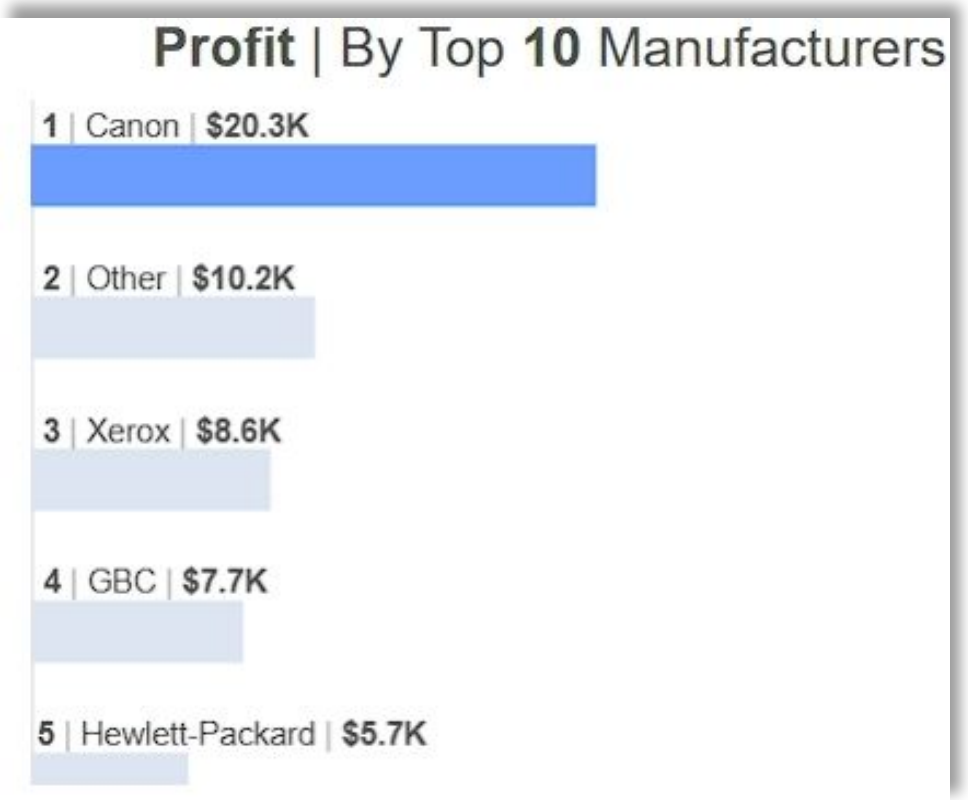


- **Sales up** in **all segments**.
- **Consumer & Home Office** segment **sales up, profit up**.
- **Corporate** segment **sales up, profit down**.
- **Sales up, profit down = margin compression**
- **Corporate segment is key** segment to profitability drag.

- Furniture category drives loss in all segments.
- Loss from Furniture category -56.6% overshadow gains from Technology (+27.4%) & Office supplies (+13.3%)
- **Furniture category sales down, profit down**

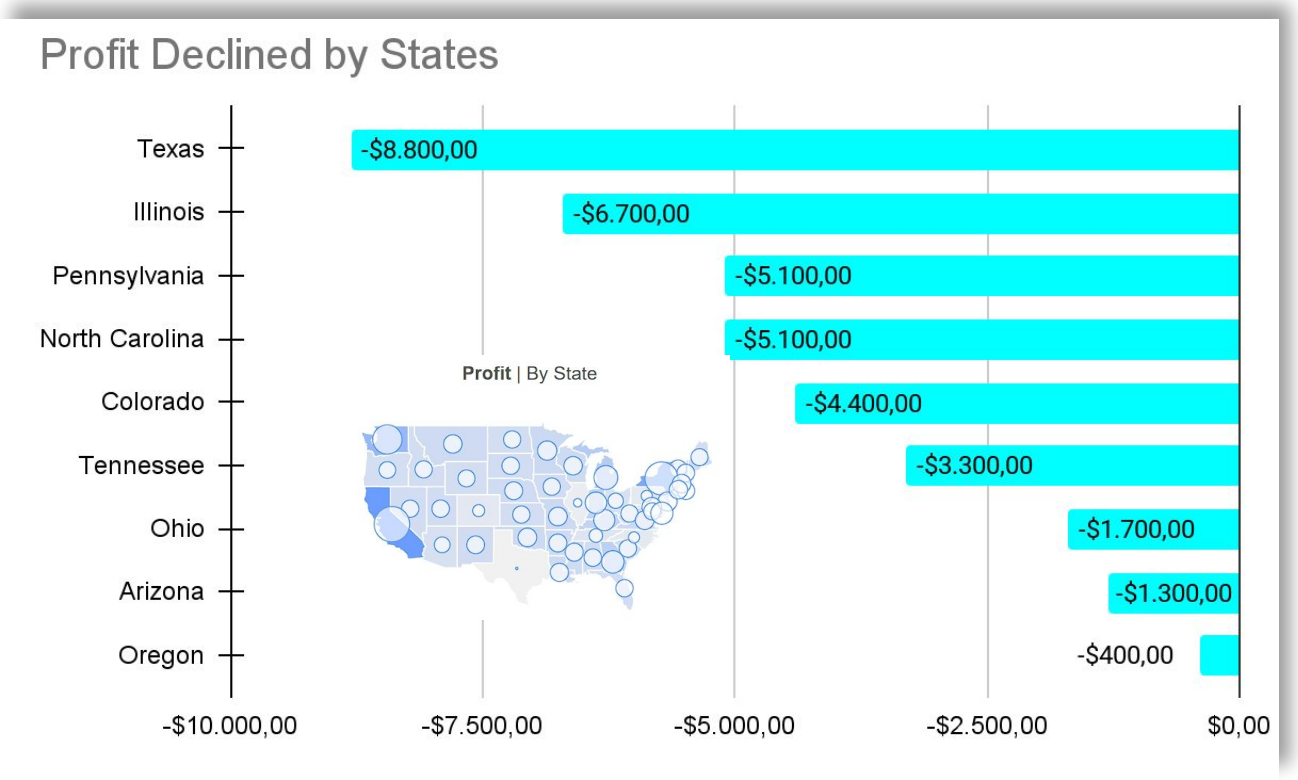


- Binders, Envelope, Bookcase, Machines sub-category profit declined compared to the previous year.
- Binders, Supplies, Machines have negative value in profit indicating still posted net loss



- Canon leads as the top profit-contributing manufacturer with $20.3K, significantly ahead of others.
- The remaining manufacturers show a more distributed profit contribution, with Xerox, GBC, and HP trailing behind.
- This concentration suggests potential leverage in supplier negotiations or product prioritization.

- Raymond Buch is the top profit-contributing customer at $6.8K, followed by Hunter Lopez and Tom Ashbrook.
- The distribution indicates a relatively even spread across top customers, with no single account dominating overall profit.
- This suggests a stable but fragmented customer profitability landscape.

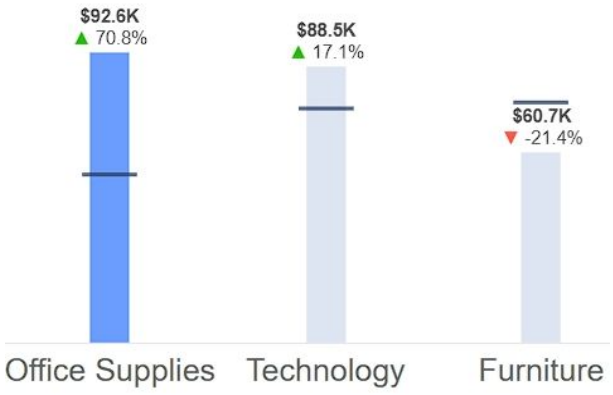


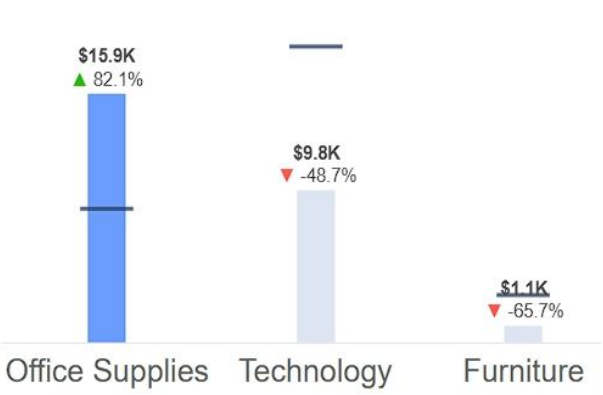
- Texas, Illinois, and Pennsylvania are the top three states with the biggest loss, led by Texas at -$8.8K.
- The geographic concentration of losses suggests regional performance

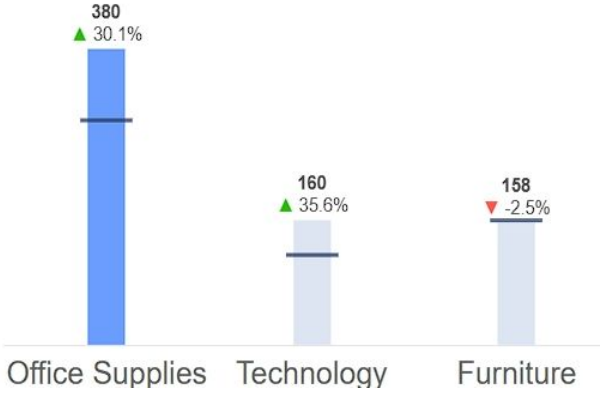
Findings

1. **Corporate segment** sales up, profit down. Sales up, profit down = margin compression. Corporate segment is key segment to profitability drag.
2. **Furniture category** drives loss in all segments. Furniture category sales down, profit down
3. **Texas, Illinois, and Pennsylvania** are the top three states with the biggest loss

Corporate Segment Deep Dive



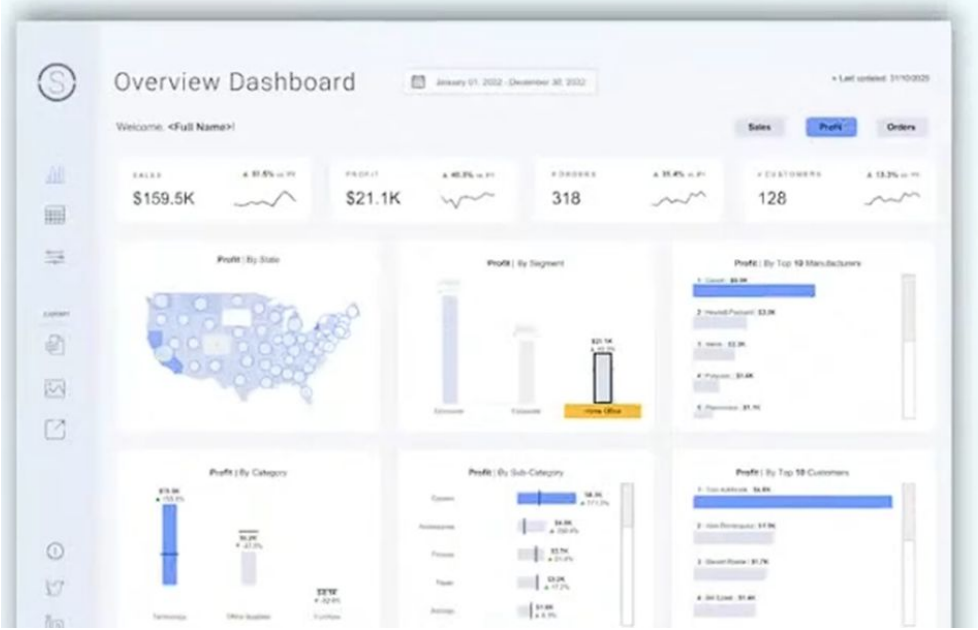




Furniture category in corporate segment has **sales down, orders down, profit down.**

Technology category in corporate segment has **sales up, orders up, profit down.**.

Home Office Segment Deep Dive

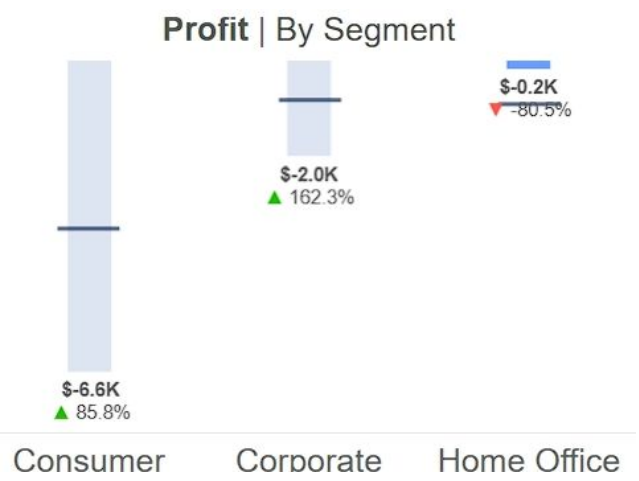


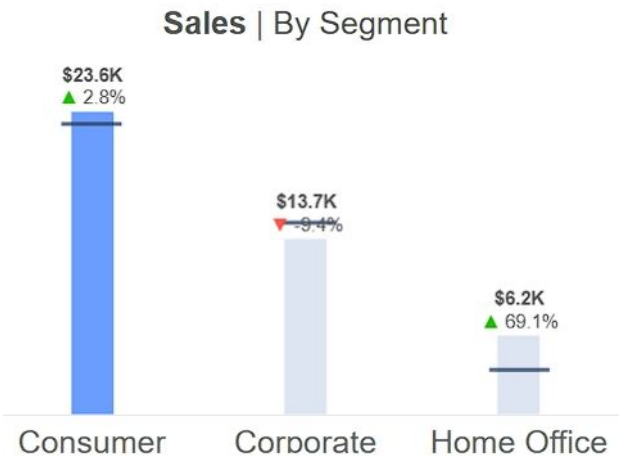
- Home office segment has profit up in Technology category.
- Post pandemic hybrid work from home/anywhere drives demand of high margin SKU in Technology category.

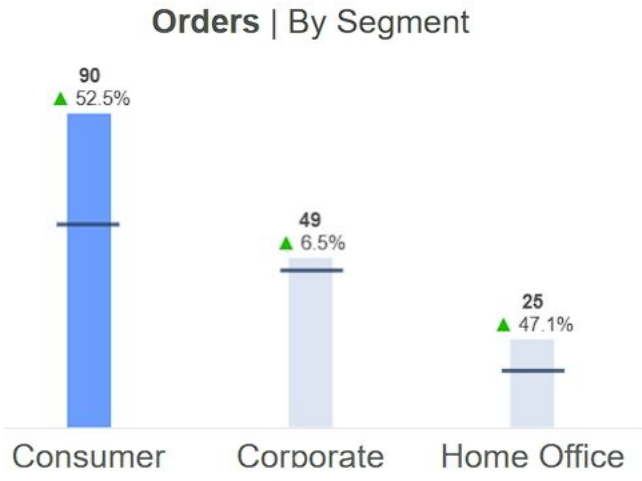
Cross Segment Insight

Segment	Sales	Profit	Insight
Consumer	+11.8%	+27.4%	Solid growth, stable margin
Corporate	+16.8%	-13.6%	Margin compression
Home Office	+51.5%	+155.9%	Margin expansion, efficiency gains

Texas State

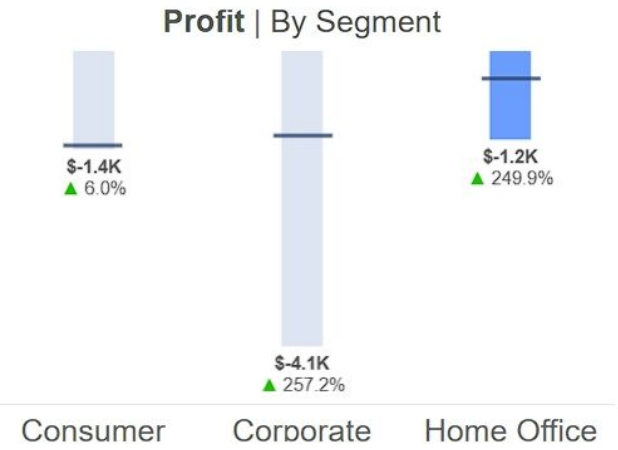


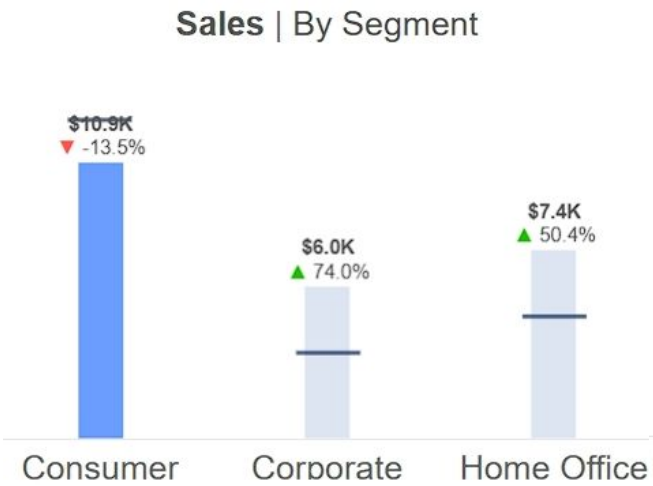


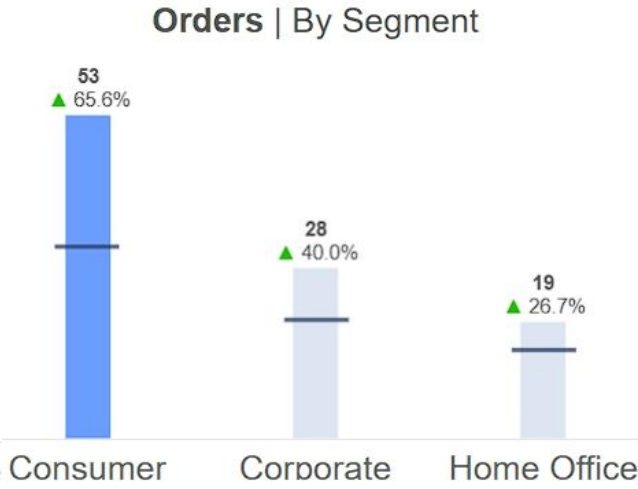


Texas state shows **negative value profit** in almost all segment (Consumer $-6.6K, Corporate $-2.0K, Home office $-0.2K) indicating still posted net loss might be due to high fulfillment cost in the region

Illinois State

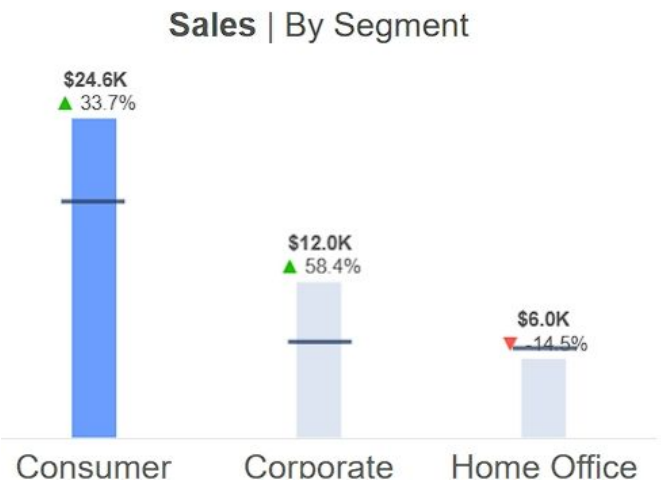


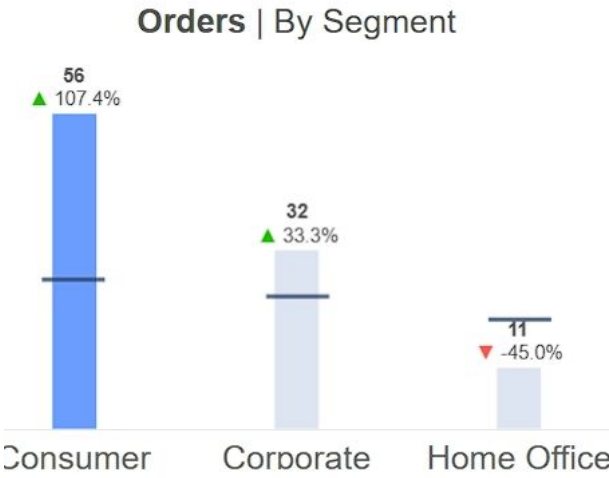




Illinois state shows **negative value profit** in almost all segment (Consumer $-1.4K, Corporate $-4.1K, Home office $-1.2K) indicating still posted net loss might be due to high fulfillment cost in the region

Pennsylvania State





Pennsylvania state shows **negative value profit** in almost all segment (Consumer $-3.4K, Corporate $-0.8K, Home office $-0.9K) indicating still posted net loss might be due to high fulfillment cost in the region

Cross State Insight

- **Texas, Illinois, and Pennsylvania** are the top three states with biggest loss
- These states show **negative value profit** in all segment, despite some increase in percentage compared to the previous year.
- These states show **positive value sales** in all segment, despite variance in increase/decline in percentage compared to the previous year.
- **Negative value profit = net loss** = drag overall performance

Root Cause

- Margin compression (Corporate segment)
- Category losses (Furniture & Technology category)
- Cost & pricing imbalance
- Net losses in certain states (Texas, Illinois, and Pennsylvania)

Recommendations

Observation	Business Impact	Isolation	Prioritization	Recommendation
Profit down, sales up	Corporate segment profit down despite sales grew.	Furniture & Technology category	High	Renegotiate with top 10 vendors or switch to alternative vendors to reduce COGS
High returns	Direct loss driver in Furniture & Technology category in corporate segment	Defect prone SKUs	High	1. QA sweep 2. Delist top 10 highest return SKUs 3. Replacement of the delisted SKUs
Deals below margin floor	Uncontrolled discounting on high COGS items making guaranteed loss deals	Pricing strategy & discount or margin policy	Medium	1. Implement Minimum Discount Price (MDP) 2. Approval for deals below MDP
Loss in furniture accounts	Sales down, profit down = demand down	Sales & promotion strategy	Medium	Shift sales & push promotion from low profit category to high profit Office supplies category
Net losses in certain states	Net loss drag overall profit	Fulfillment team & logistics team in biggest loss states	Medium	Enhance efficiency of fulfillment & logistics in biggest loss states

Conclusion

1. Profit growth hides deeper structural inefficiency
2. Corporate segment profit decline amid sales growth shows structural inefficiency
3. Furniture category loss are systemic & drags total performance
4. Home Office segment demonstrates profitability potential cost and mix align
5. Certain states, that still posted net loss, drags total performance

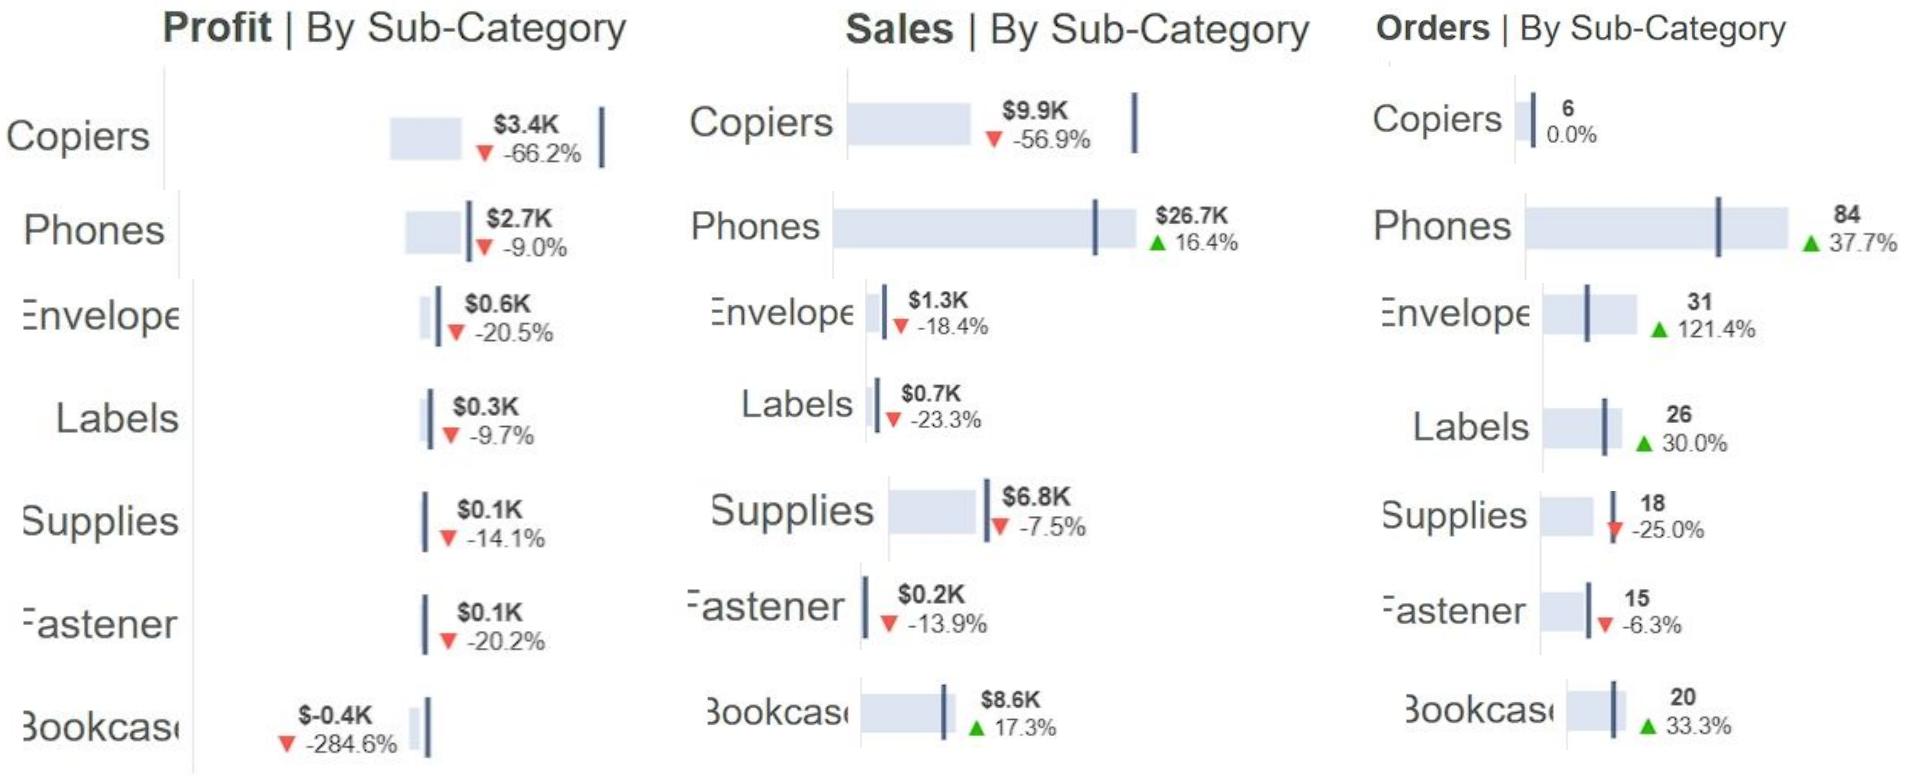
THANK YOU

End of presentation

EXPLORATORY DATA

For internal purposes

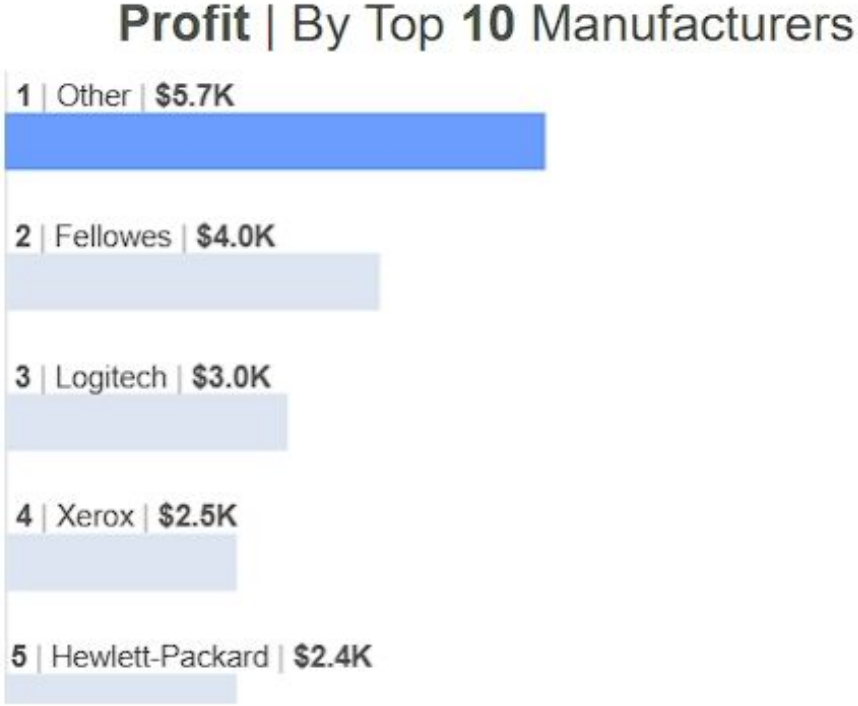
Corporate Segment



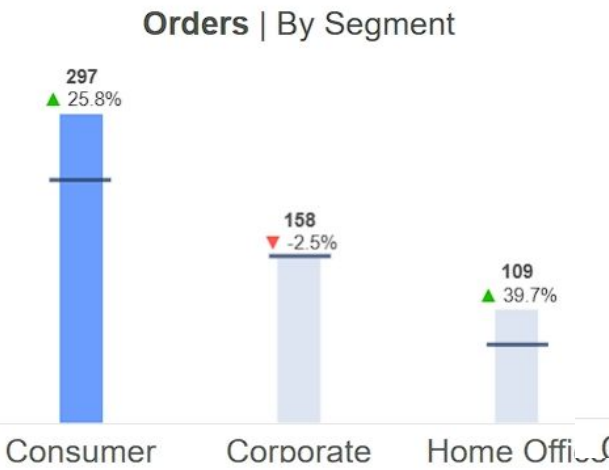
Sub-category copier, envelope, label, supplies, fastener show declining profit because of declining sales.
Sub-category phones & bookcase show declining profit amid sales growth.
Sub-category bookcase have negative value in profit indicating still posted net loss

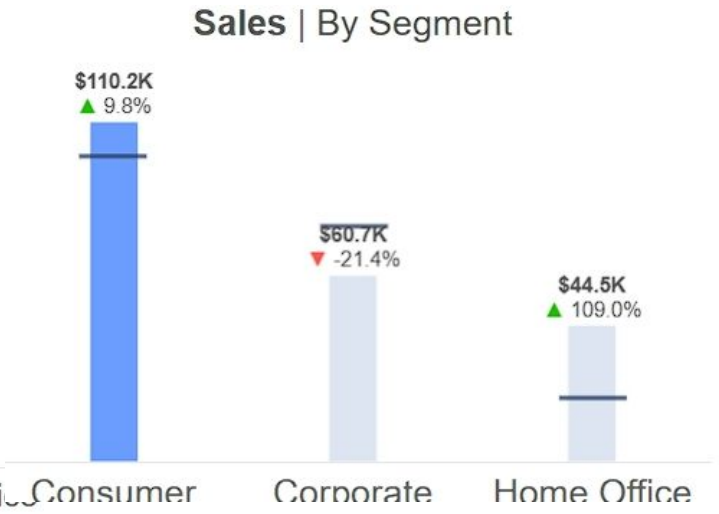
Corporate Segment

States	Profit
Illinois	-4.1K
North Carolina	-3.8K
Texas	-2.0K
Ohio	-1.0K
Pennsylvania	-0.8K
Tennessee	-0.7K
Arizona	-0.3K
Colorado	-0.3K
Florida	-0.2K
Oregon	-0.1K



Furniture category

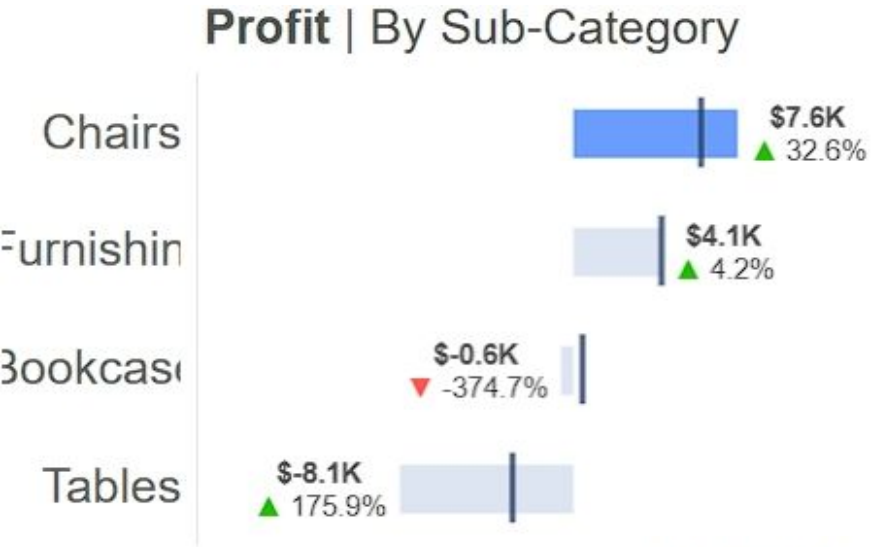


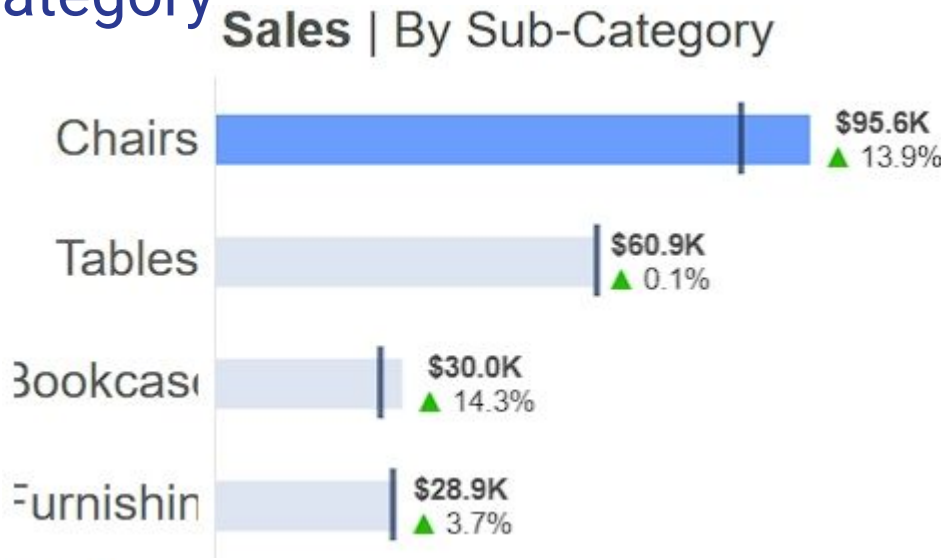


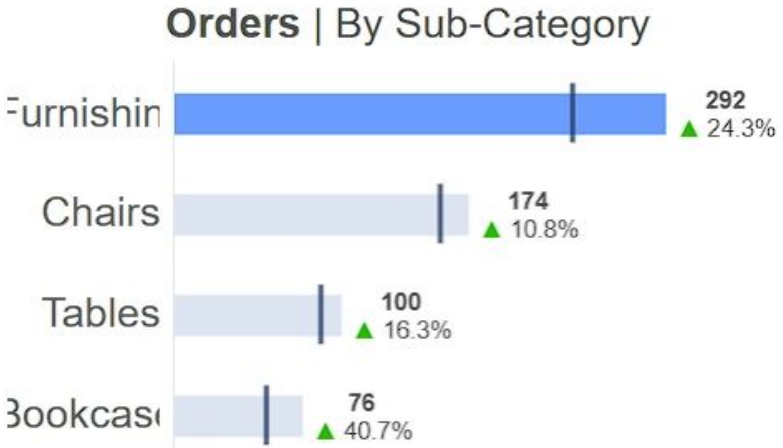
Furniture category in **corporate** segment has sales down, order down, profit down.

However, **Furniture** category in **consumer & home office** segment has sales up, order up, profit down.

Furniture category







Bookcase sub-category has shown profit decline amid sales & order growth

Other sub-categories has uptrend in all in all indicators (profit, sales, order).

Sub-category bookcase have negative value in profit indicating still posted net loss

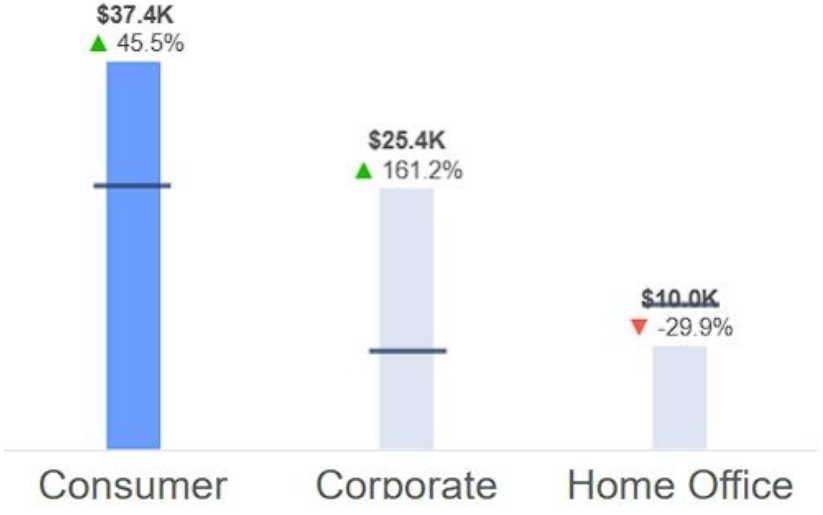
Furniture category

States	Profit
Texas	-3.2K
Illinois	-2.9K
Tennessee	-2.1K
Florida	-1.3K
Arizona	-1.1K
Colorado	-0.9K
North Carolina	-0.8K
Ohio	-0.6K
Oregon	-0.5K
West Virginia	-0.1K

Binders Sub-category

Profit | By Segment

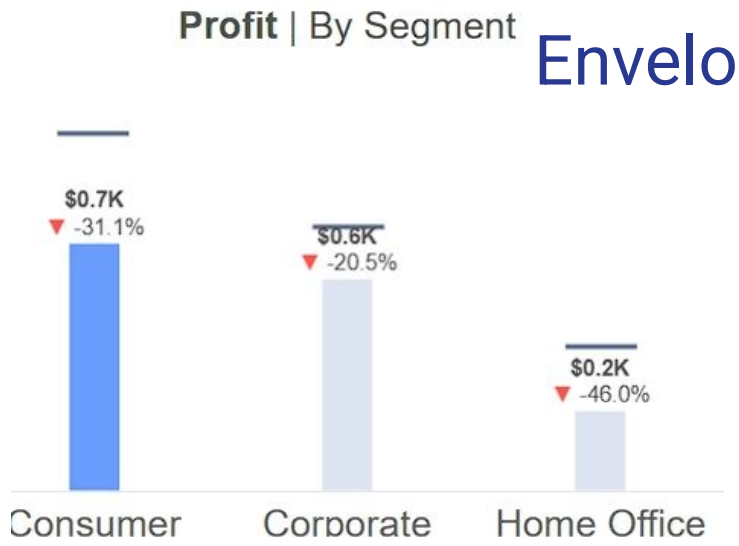
Sales | By Segment

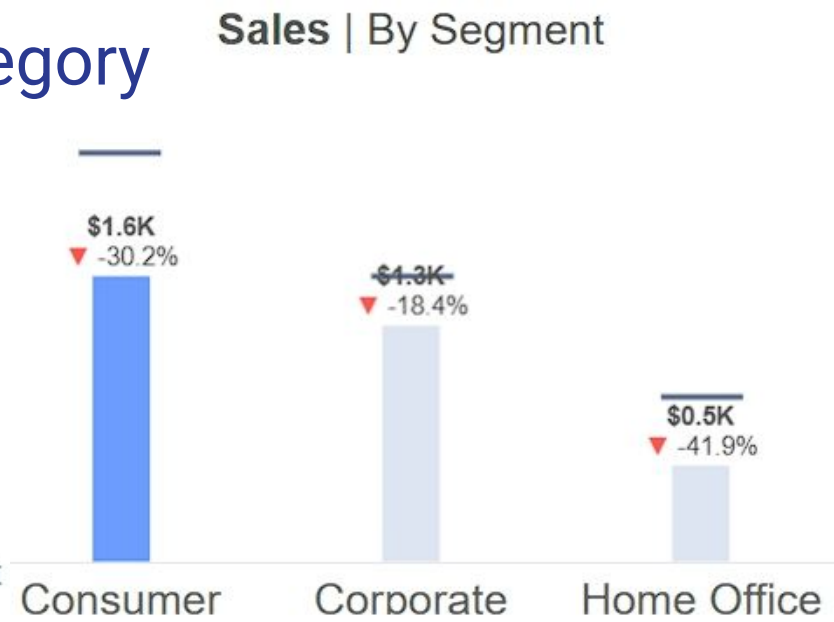


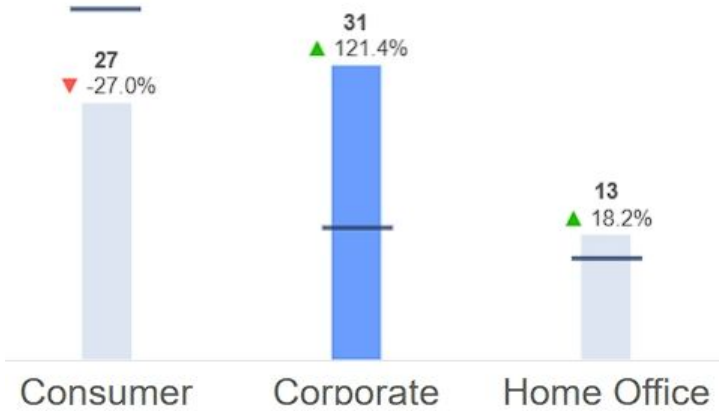
Orders | By Segment

Sub-category binders in home office segment show declining profit because of declining sales.

Envelope Sub-category

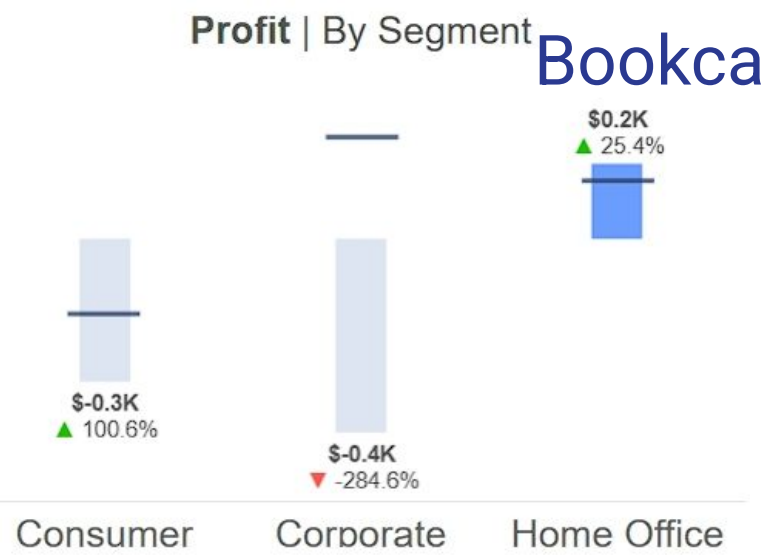


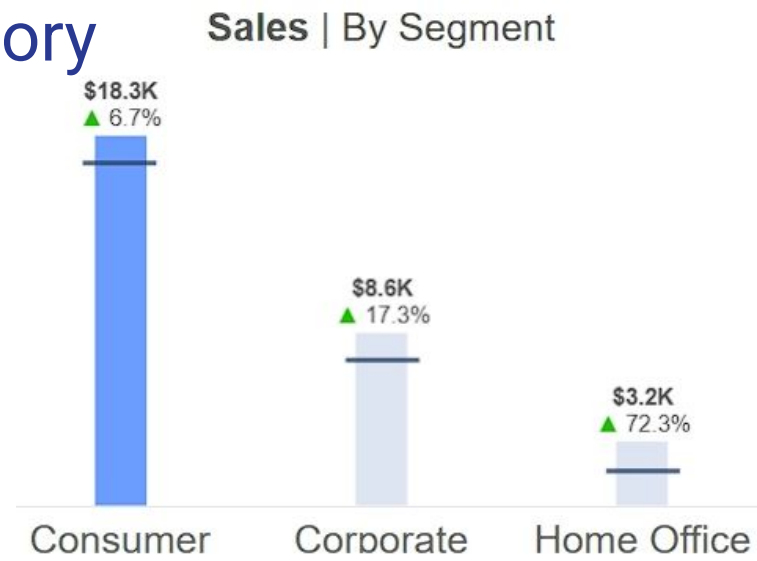




Sub-category envelope in all segment show declining profit because of declining sales.

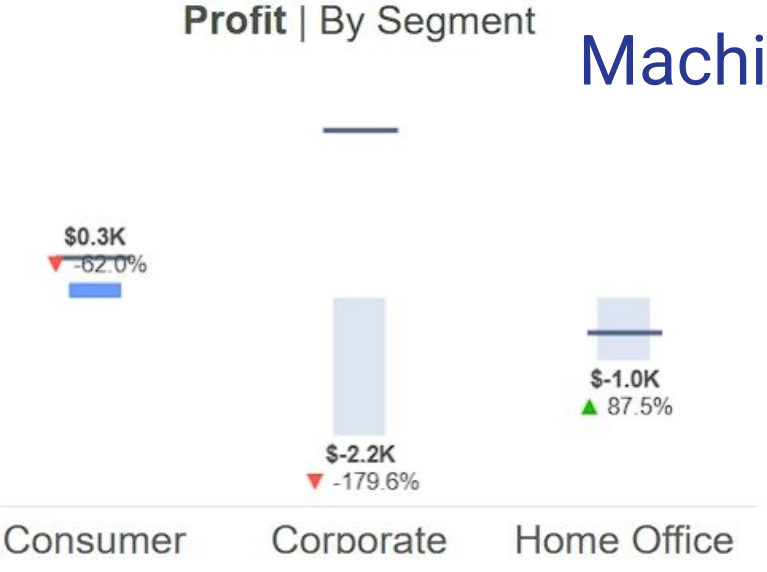
Bookcase Sub-category

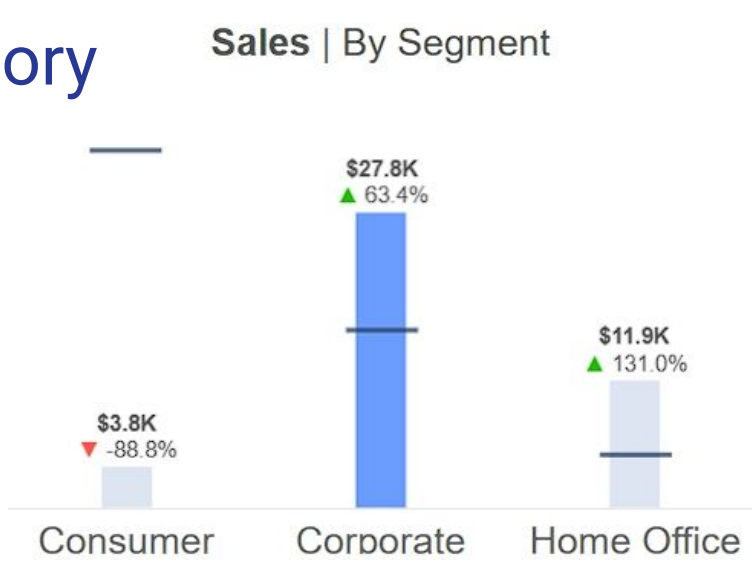


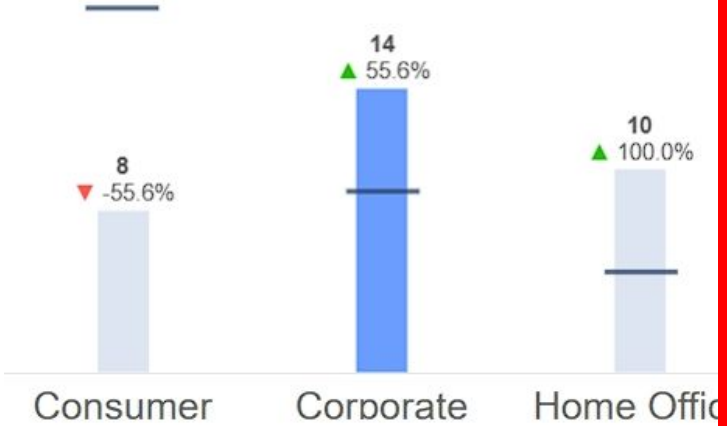


Sub-category **bookcase** shows **negative value profit** in almost all segment indicating still posted net loss might be due to high fulfillment cost.

Machine Sub-category

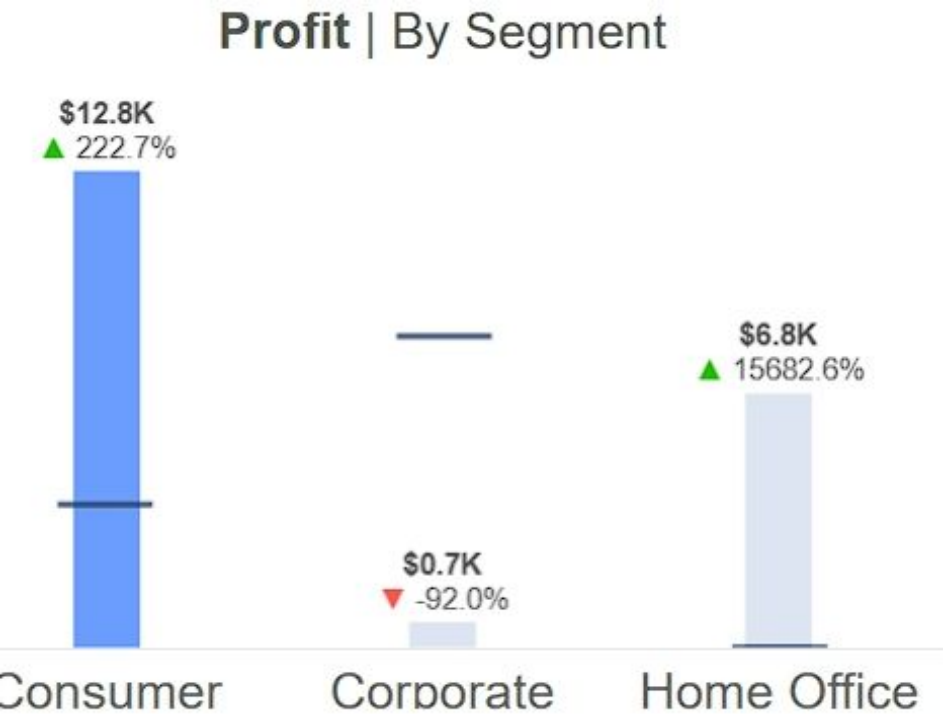






Sub-category **machine** shows **negative value profit** in almost all segment indicating still posted net loss might be due to high fulfillment cost.

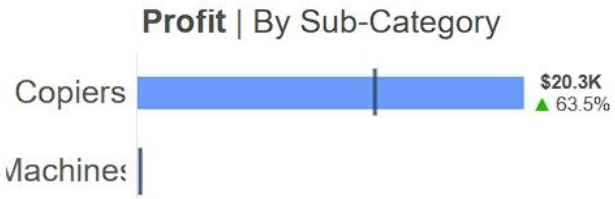
Canon Manufacturer

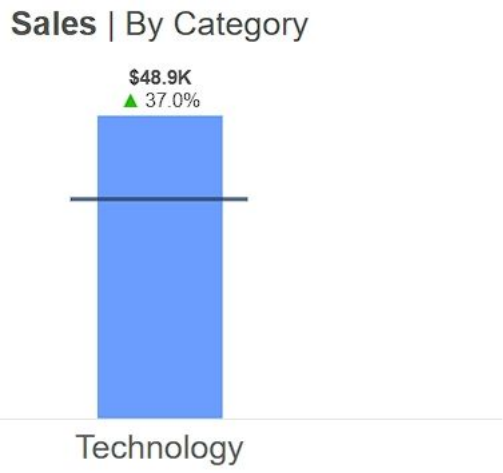


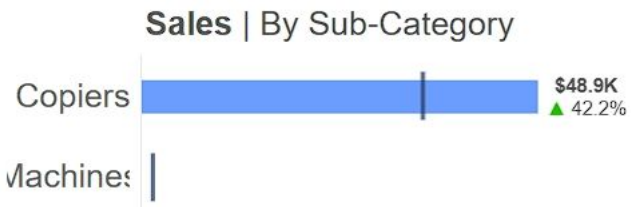
Canon profit decline di corporate segment due to declining sales in corporate segment.

Canon is not in top 10 manufacturer in order count.

Canon Manufacturer

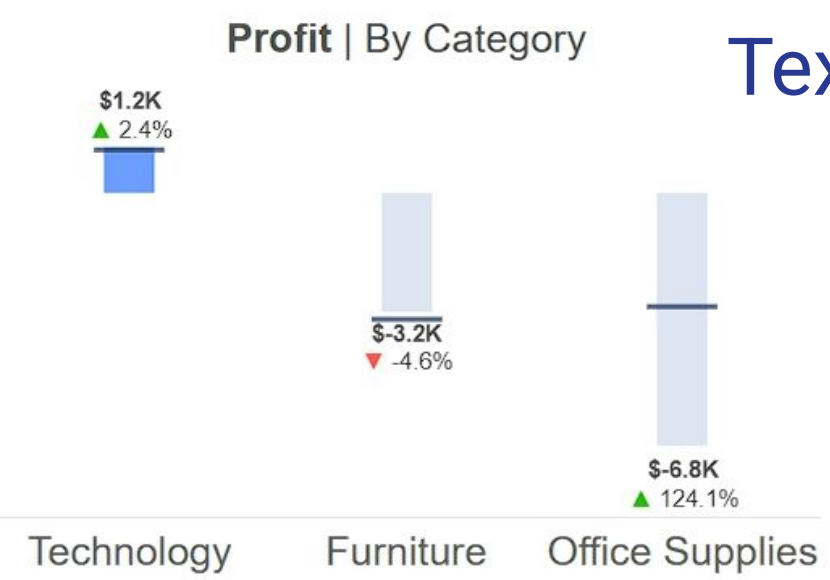






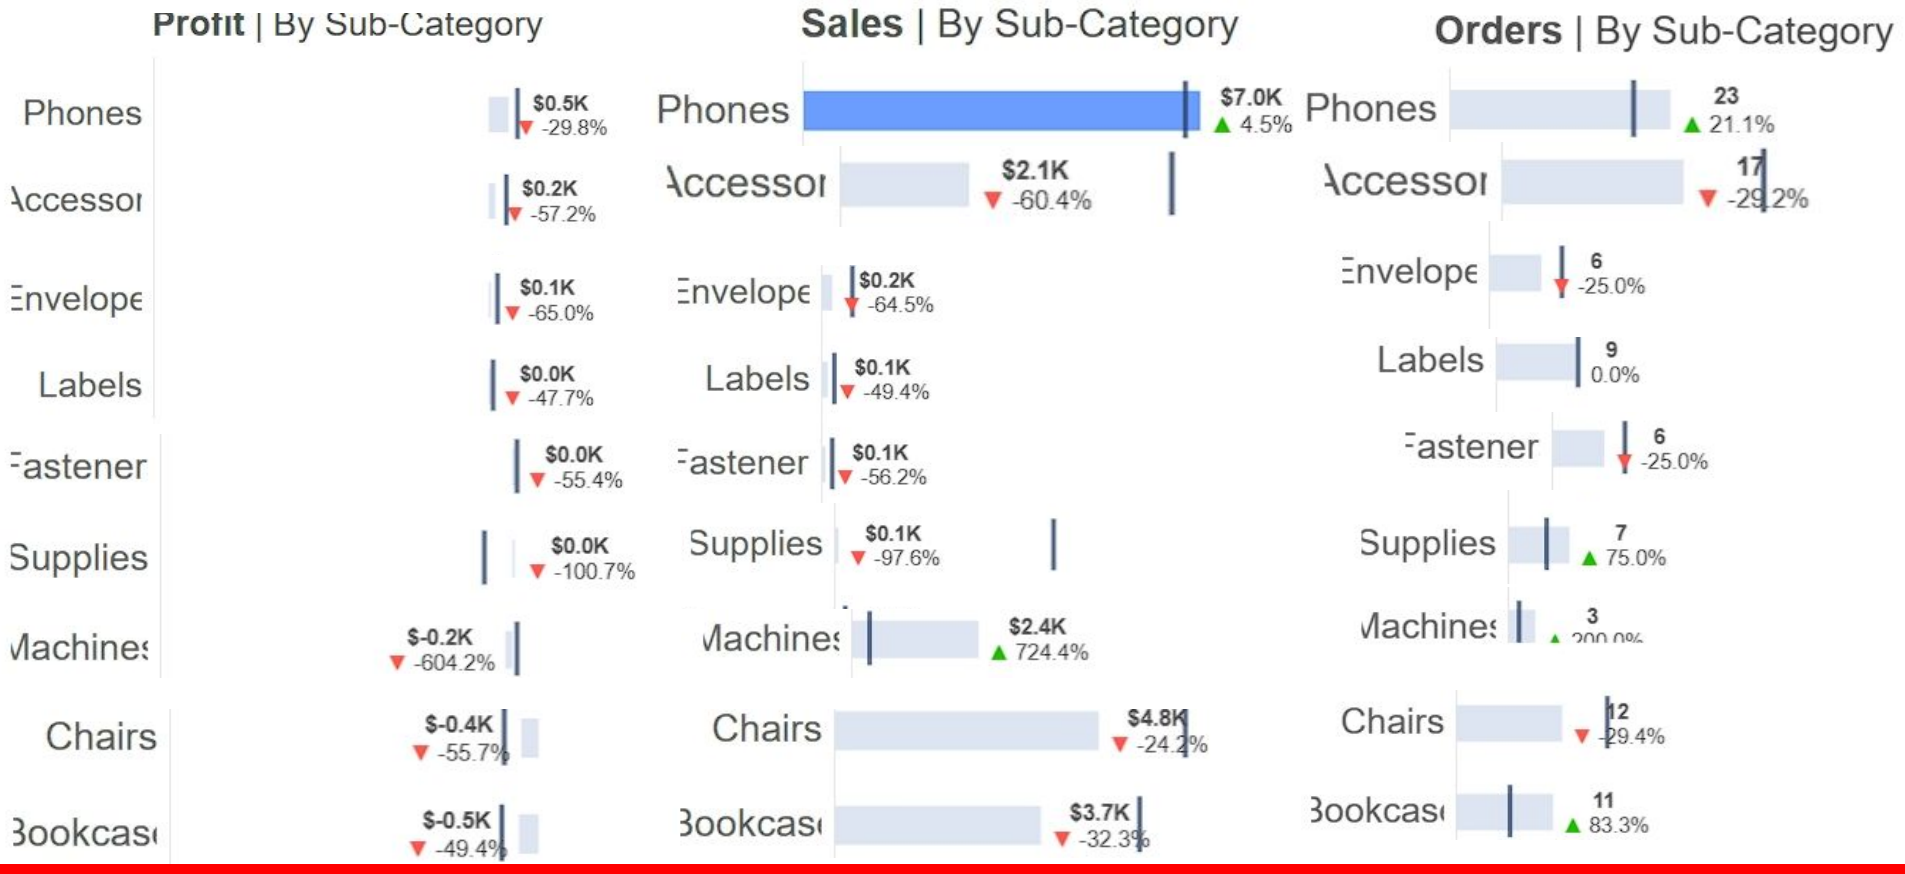
Canon is not in top 10 manufacturer in order count.

Texas State



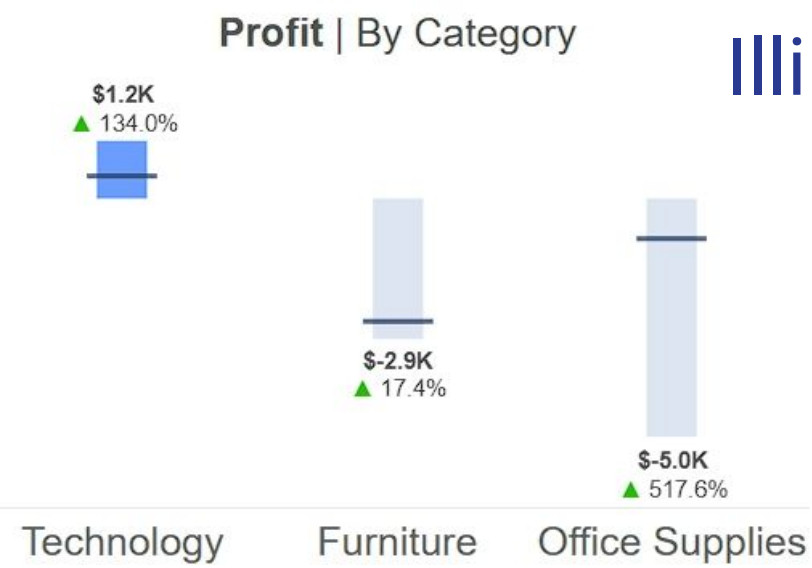
Texas state shows negative value profit in almost all segment indicating still posted net loss might be due to high fulfillment cost in the region

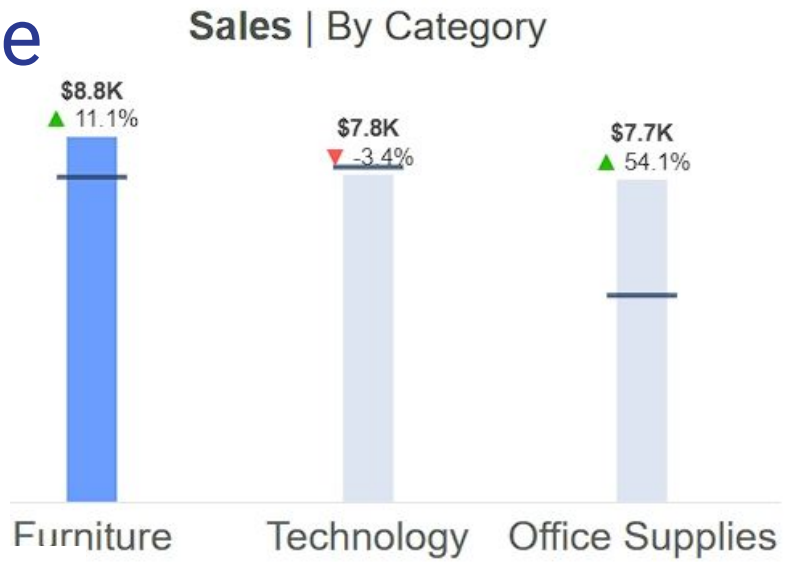
Texas State



Texas state shows negative value profit in almost all segment indicating still posted net loss might be due to high fulfillment cost in the region

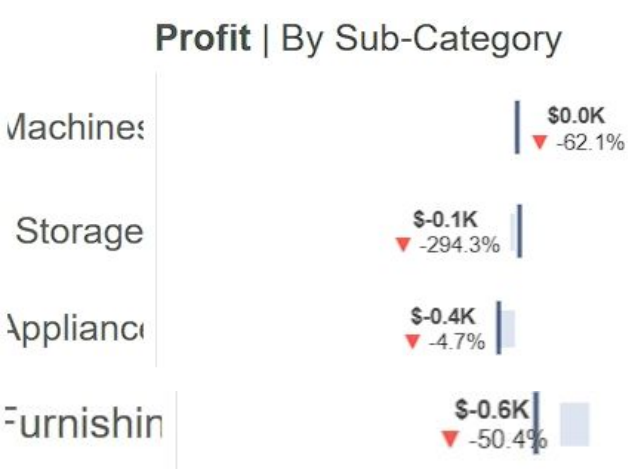
Illinois State

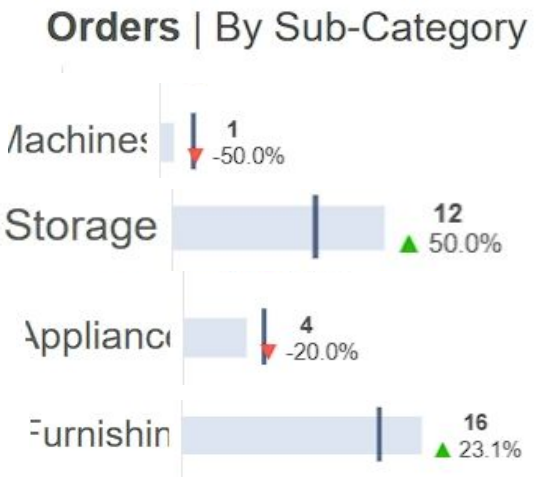




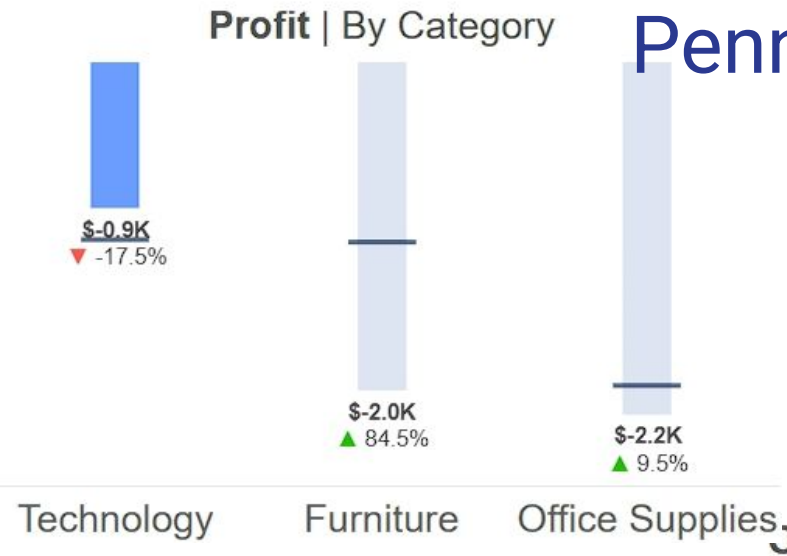
Illinois state shows negative value profit in almost all category indicating still posted net loss might be due to high fulfillment cost in the region

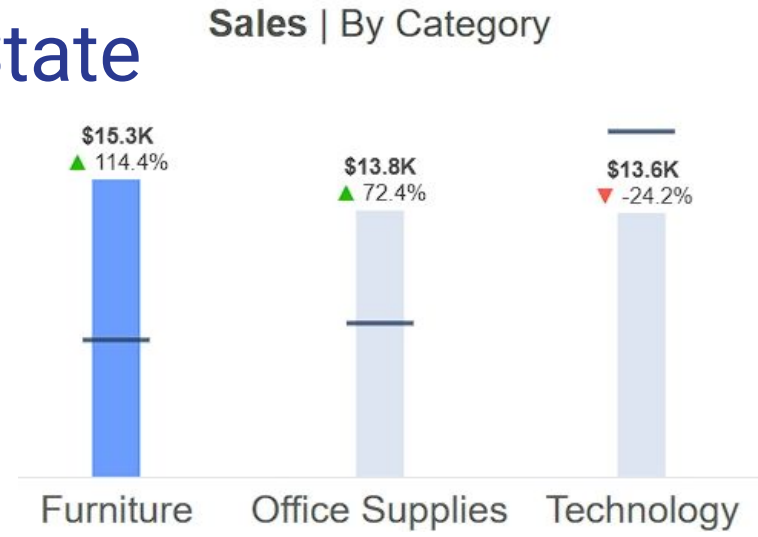
Illinois State





Pennsylvania State





Pennsylvania state shows negative value profit in almost all category indicating still posted net loss might be due to high fulfillment cost in the region
